

YOUR PIY OVERSEAS INSTRUCTIONS

To avoid confusion, it's vital to make it very clear what you require from your PIY operator right from the start. To do this just fill in the blanks and circle the options you want below then sign and send this form in. It won't take long and will help you decide exactly what you want *before* you go any further.

What if I don't sign this form before sending it in? Nothing will happen without your signature.

Why can't I just phone my instructions through? It's important to use this written instruction to protect yourself from anything being misheard over the phone or misunderstood - it's a great checklist to make sure you get what you need and it's actually a lot faster than phoning in.

SPECIAL NOTE: Those requiring a Shipping Container need to be aware that for various reasons (such as access), not all residential addresses are suitable for the drop-off of a shipping container for loading. In these cases your packed belongings will need to be transported from your home loose for loading at our premises. You'll be advised as soon as possible if this applies to you.
